Part A: Pupil premium strategy plan

Statement of intent

Our objectives are:

- To narrow the attainment gap between disadvantaged and non- disadvantaged pupils in reading, writing and maths; and for all disadvantaged pupils in school to make or exceed nationally expected progress rates, through high-quality teaching and learning and targeted support.*
- To ensure that disadvantaged pupils take part in a wide range of experiences and enrichment throughout the academic year.*
- To support our pupils' health and wellbeing to enable them to access learning at an appropriate level.*

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Some children continue to have less access to cultural and social experiences which leads to gaps in skills, knowledge and understanding both academic and of the wider world.
2	Pupils coming into Early Years with less-developed language and communication skills
3	Lack of access to resources at home, such as technology and books, causing slower development of knowledge, skills and understanding.
4	Challenging home circumstances, resulting in social and emotional needs at home and school.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
1. The gap in outcomes and progress in reading/writing/maths for disadvantaged pupils is reduced.	End of year outcomes for all year groups in 2026 show that disadvantaged pupils

	are closer to non-disadvantaged than in 2025. Evidence-backed interventions are used effectively to support and increase rates of progress for disadvantaged pupils.
2. Disadvantaged pupils are supported where necessary to take part in a range of activities across the school year, in line with non-disadvantaged pupils.	Disadvantaged pupils take part in trips (including residential visits) and access extra-curricular clubs at least in line with non-disadvantaged pupils.
3. Support is delivered for social and emotional needs for disadvantaged pupils, ensuring that there is no gap in behaviour and attendance between disadvantaged and non-disadvantaged pupils.	Attendance figures show no or a reduced gap between disadvantaged and non-disadvantaged pupils. Action has been taken to support families of disadvantaged pupils with behaviour and emotional needs (through ELSA support, TAF, CiN, Early Help)
4. Disadvantaged pupils in Early Years setting show increase in outcomes in communication and language	Pupils at the end of Reception year show increase in attainment in all aspects of English.
5. Disadvantaged pupils have access to resources at home.	All PP children given books to take home and read. Our school library is regularly refreshed with books to support reading of all pupils.

Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.
